Subject: RE: BDCP briefing for March 23 Stan Meiburg visit

I can update and streamline my Bay Delta presentation and add a snippet about the drought response strategy (if you wish).

Months ago, I promised this briefing to Kathleen and Suzanne Skadowski, but have had trouble following through given competing priorities.

Re: the Governor's visit to HQ, we (Stephanie and Tom) are updating the "history of EPA interactions with DWR and the Corps" that I assembled last year, and will send it soon to Cynthia and Ken (through ERO-ENF).

I circulated that history last week in response to comments from Rep. Calvert.

The document contains numerous hyperlinks that will take readers to the source materials in case they need "proof" that we actually sent comments and messages on the dates we indicated.

I have a call in to Kathleen to talk about preparing for this briefing for Stan Meiburg. We can talk further tomorrow at Tim's update.

I also asked if she needs anything from us re further prep. for the Administrator for possible Friday visit by Governor Brown re the change in direction.
